AN ECOSYSTEM FOR TRANSFORMATIVE RESEARCH AND EDUCATION

With unprecedented, synergistic collaboration between University of California, Berkeley and Tsinghua University, the Tsinghua-Berkeley Shenzhen Institute (TBSI) will provide a unique global platform for transformative, translational, and trans-disciplinary research and education for future world leaders in science and technology.

The vision of TBSI is to build a world-class research and education partnership to fuel economic growth with accelerated innovation. The headquarters of TBSI are located in the Zhi Yuan Industrial Park, Nanshan District, Shenzhen, China with offices and laboratories in Zhi Yuan, the Graduate School at Shenzhen, Tsinghua University, and the University of California, Berkeley.

For more information on TBSI corporate memberships, please contact:

Come Share Our Vision. Be a Corporate Member. Contribute to developing the next generation of technology leaders and innovations. A win-win partnership to transform the world!
COLLABORATE WITH TBSI

Be a partner in the TBSI research and education agenda, and stay current in cutting edge research and potential disruptive technologies!

Your company’s involvement will increase your brand recognition with students who can be potential employees and customers.

BECOME OUR VALUED PARTNER

Show Your Support for the Sino-American Collaborative Mission of TBSI: Become a Corporate Member, and receive:
- Concierge service to facilitate interaction with faculty and graduate students
- Facilitation of student recruitment
- Invitation to TBSI annual research retreat and learn the newest and hottest in the research fields.

Provide Your Employees with Research Opportunities: Your participation in the Visiting Industrial Fellowship (VIF) Program will provide:
- Choice of location: TBSI Berkeley or Shenzhen sites
- Choice of up to three faculty members as local hosts
- Participation as a regular member of the host professor’s research group
- Opportunity to audit classes and seminars
- Assistance with relocation and language courses.

Sponsor Research: Enhance your company’s research and development with targeted funding of the TBSI faculty, and receive:
- Funding specific research topic with a choice of a single faculty member as a point of contact
- First right to review progress of research and to negotiate licensing of IP resulted from the sponsored research.

Increase Brand Recognition: Lend your name to sustain the development of the trans-disciplinary TBSI:
- Acquire naming rights for the laboratories and other facilities
- Endow professorships, student fellowships, and awards.

This elite circle of corporate partners has the opportunity to:
- Invest in the research direction of TBSI by supporting one of 40 new professors
- Develop ongoing relationships with the recipients of the endowed professorships and student fellowships
- Receive periodic updates of progress including customized TBSI briefings
- Participate in the inauguration ceremonies of facilities and award ceremonies of endowed professorships and students fellowships.
